### Hogge Ordered Held for District Court

David S. Hogge, charged with a statutory offense against a 17 year old Ogden girl, waived preliminary hearing when he appeared before Judge D. R. Roberts in the city court this morning. He was ordered held for trial in the district court.

Hogge is alleged to have been living with the girl for some time prior to his arrest. He is a married man and has a wife and three children who, the police say, have been deserted and abandoned by him.

Judge Roberts fixed his bail at \$1000.

"Little enough," the judge said, "for a case of this nature."

### Speeder Given Three Days in City Jail

Howard Faulkner, chauffeur for the Ballard-Mortenson meat market, was sentenced to a jail sentence of three days when he was found guilty of speeding by Judge D. R. Roberts in the city court this morning.

Faulkner, a youth of 18 years, was called to the witness stand.

"What is your age?" asked Assistant City Attorney Sam Powell.

"Seventeen," said Faulkner.

"Why did you give your age as 18 when booked?" Attorney Powell asked.

"I am 18 years old."

"Then why did you just say you were 17 years old?"

"Officer Noble told me to," said the boy.

Officer Noble, when called upon the

## Five Things Happen

When you brush teeth in this way

Dental science has produced a new teeth-cleaning method. Millions of people have already adopted it. Leading dentists everywhere advise it. In effective ways it combats the film on teeth. And it deals with this tooth wrecker as was never done before.

### The fight on film

Modern dentistry finds that most tooth troubles are caused by film. The film at first is viscous. You can feel it now. But it clings to teeth, enters crevices and stays.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acids. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Very few people have escaped these film-caused troubles. Ordinary methods do not end this film. So millions who brush teeth daily find they still discolor and decay.

### A multiple attack

Now new ways have been found to fight film. Careful tests have proved them. High dental authorities approve them.

They are all combined in a dentifrice called Pepsodent. It meets every modern requirement. And this new tooth paste is fast coming into world-wide use.

### You'll know in a week

Some results of Pepsodent appear rapidly. Within one week the good effects will be amazing to you.

One ingredient is pepsin. One multiplies the starch digestant in the saliva, to digest starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

Two factors directly attack the films. One of them keeps the teeth so highly polished that film

cannot easily cling. In all these ways it brings and maintains whiter, safer teeth.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how the teeth whiten as the film-coat disappears.

Compare the results with your old methods. Then let those evident results tell you what is best. Cut out the coupon now.
